

Never Control another life, for controlling another life is evil, Jesus is in control of every life, and no one else should be in control of another life. For controlling other life, is only more & more evil, and the less we control other life, the happier we are. And the less we control earthly treasures, the happier we are. If someone asks for something, we should give the person what they ask for, and never ask to be repaid, but be repaid from Jesus, for Jesus is a greater reward. Do not judge any life, because Jesus is the Judge of all life, we are not qualified to judge life, because Jesus was born before we were. For if we try to control satanic spirits, and tell them who to harm, we have spent our lives, controlling to many things. For if we love the earthly life, and destroy life that harms our earthly life, then we love earthly treasures bought from a store, and hate people who do not love what they can buy with money. Thus creating our lives more and more evil, trying to retain our earthly treasures, and destroy people who decrease our money related wealth. We should not use our homes to control other life, for controlling other life is evil. To control earthly treasures less, leave car keys in the ignition, and no locks on the house doors, thus letting anyone who wishes, control earthly treasures, as they desire. It is very bad to use earthly treasures to control other life, treating other life as though it was something bought in a store. Too much love of money results in spiritual death, for the love of the earth, is the hatred of Jesus, and the love of Jesus, results in no love of money. For evil life is destructive, and forceful, controlling too many things. Evil can not conquer evil, and a sinner can not save a sinner, but only Jesus is the saviour of sinners, because Jesus is perfect spiritually without sin and can save any sinner from sin, and Jesus knows how to save every sinner from sin, and does not need any sinners help to save a sinner from sin. For I am the judge of nothing, but Jesus is the judge of anything. For we should not control any other life, but let every life do whatever it wants. For the more we control other life, and material items, the more evil we become, and become less spiritual alive from this. Taking another persons life and giving it to another life is evil, and we should not do this, because we all depend on Jesus for all our needs. For a demon is in great pain because he controls other life, and material possessions, and when he is confronted by something which Jesus spiritually creates, they would try to control that too, but it can not be changed as easily, because it is stronger spiritually, so do not try to control material belongings, or other life, because it is more painful to repent, when an angel of Jesus judges you. For demons try to grow people to give them more life, giving them evil, in exchange for a higher spiritual power, using other life as a spiritual power. Providing for a person earthly needs, which money can provide, to can more spiritual power from them, trying to buy spirit with money, growing people to become dependant on what money can provide, and loving an earthly life, using people to gain spiritual wealth from them. But if a person does not trust in the devil to provide for their needs, but receives all help from Jesus for all their needs, receive all help from Jesus is not a sin, but receiving help from a sinner is a sin, taking another life is a sin, touching other life is a sin. The devil should not exalt himself to talk to God, but humble himself to Jesus, and be saved from their sin. Talking to God is a sin, but talking and relying on Jesus for the forgiveness of sin, letting Jesus do his Job, will save anyones from their sin, for a sinners does not save anyone from sin but Jesus is the saviour for all sin. Why would you talk to God, when Jesus saves you from sin. Do not use heavenly powers to punish people, for using power is evil, and we must not try to be powerful, but be helpless, and let Jesus save us. I'm fine, Jesus handles all of my problems. For we should love no other life, but only Jesus, because Jesus saves us from all sin. And if we love another life, which is not Jesus, we have committed a sin, and we should not love another sinner, but only love Jesus, People should not have families, but should live alone, by them selves. And if a person has other life with them, let the other life do whatever it wants to do, letting it come and go whenever it pleases, and do whatever it wants to do. And the devil and his people should not come to my home, and preach satan to me, for jesus preaches jesus to me, but satan invites his people, or his spirit into other people homes, looking for the life that another person has in their home, and going to another persons home to attain what they have is a sin, for the bible clearly states they we should not go to other peoples homes, to obtain what they have, for it is a sin to covet what another person has, but the devil is not obedient to Jesus, and goes to other people homes to obtain what they have, but doing this will not help a person become an angel, going to another persons house for help in life, but turns a person into a more evil spirit. For the devils spirit wants to be in everyone home to take life from what I have.
