

Greeting's in the name of our Lord Jesus. I understand that I had received services from your organization, in which I have become in debt to you, for the blessings which I had received. And, that now, your organization, want's to be re-paid, with money, for which I have received. I have decided that, since I have received, these services, and blessing's, INVOLUNTARILY, and was forced into receiving them, thus I will not pay for any money, in which is contributing toward RENT, of the organization's building, in which is directed toward's the maintaining of the taxes towards the use of a building. Jesus provides for all of my needs, however, someone thought that it was appropriate, that I receive services, from other sinners. I did not require this, since I receive my needs from Jesus, not other sinners. What purpose was this done I ask? Was it to gain my blessing in life, or to bill me and run me out of the money that I have, providing unneeded services to me. For I was in worse or the same condition, after receiving services from you, comparing how I was at the beginning, and how I was after treatment. I am not your higher power, but may you receive a blessing of money from your higher power in behalf of my services which I had received. I do not feel that the use of the money I have would be justified in using it to repay a fraudulent debt! I am willing to go to court, if you decide, and hear a judge, and his verdict, but I believe that it will not happen, because no just judge, will give a verdict against me. Collection agencies are also a waste of time, so do not bother using them to collect this debt. For it is written in the bible, **Mat 6:33 But seek ye first the kingdom of God, and his righteousness; and all these things shall be added unto you. Seeking money first, is a sin according to the bible.** For if your organization follows the teachings of the bible, the organization will prosper in life, but if you just seek money, having a wicked purpose, regarding me, then how can your organization prosper spiritually from this. It will not but, there is great loss in wellness, in doing this wicked thing. Jesus is the judge of all things, let us let Jesus judge these things, and let us not judge anything in behalf of Jesus, for our judgement is not true! I agree however to repay the current market value for all medicines and/or food, in which I received, in which is a small debt in which I can repay. But if this is not satisfactory, I will repay my debt at an amount of \$10.00 per month until my debt is repaid. For the false WORD is sin, and will not prosper. For I understand that your organization does not receive help from Jesus, as I do, but it must repent and receive help from Jesus, otherwise it will fail spiritually. For I have asked for nothing from you, and all that which was provided for me in my behalf, was completely Involuntarily, and un-needed, but as you say, I was sick and needed the services. But If you will kindly describe what my sickness is, I would be more than happy to laugh at you, because Jesus Cures my sickness, not you! You only had immoral purposes in retaining me as a patient under your care, and the only purpose was to self gain from my life. How much to you repay me for the LIFE which was gained from me, since, Jesus is not your provider for LIFE, so I guess, your provider of LIFE is other sinners like myself.....
