

## The Story of 'Job'

There once was a man named 'Job'. As it is recorded in the bible. He had a large family, and great amounts of livestock! God bragged about how fine a person Job was. Now, the devil, was talking with God, and saying, that Job was blessed from God, and asked God if he could curse Job, and that Job would 'curse God to His face!'. All of Jobs family was being killed, and his livestock was also being killed or taken away. After all of this happened to Job, what do you think he did? Being a just person, he blessed the Lord, and did not accuse God for what had happened. Yes, it is never good to question God, for God is Good, always, regardless of what a person goes through. There is only one God. What can you do? Then Job had sores all over his body. But being a Just and upright person, he said, 'shall we receive Good at the hand of God, and shall we not receive evil? Thus Job did not sin in this. We can learn from this, in when our lives, are not going well, regardless, bless the Lord our God, and permit the evil to happen to us! Job was so unhappy, that he regretted, the day he was born. Then for some time, Job, was wondering why all of these hardships were upon him. Job remained loyal to God, but questioned, why he was going through all of the hardships, and he tried to analyze the reasoning behind it all...

At the end of Job's testing, all was restored to him, even, twice as much as he had in the beginning, before the testing began. Even his Seven sons, and three daughters, were restored to him.

Can you be as loyal to God as Job was? It is good to always, bless the Lord, regardless of what we are going through! Sometimes, the Lord will not tell you what His Plans are, and then, you should trust the Lord, for he alone is God! Let Him handle your life! Amen!
