

Why isn't everyone living a perfect life?

If God is a person with unlimited resources, then, why isn't everyone living a perfect life? After all, God wants us to be happy, and be living a happy life, like Jesus is living. This is true! But, when God created us, he gave us a free will. This means, that, we can either choose to follow Jesus, and his ways, or the Devil, and his ways. If you think about it, the Devil is a very miserable person. Why do you ask? First of all, What is wrong is, that the Devil claims to be God! Of course, he is not. This is a major sin. And, the Devil chooses to live his life, totally contrary, to the way Jesus lives his life! That, is why, the Devil is living a miserable life. The law of God is just, and the Devil has broken, all of the laws of God, therefore, the Judgement of God, has given the Devil, what he justly deserves. The Devil is perpetually living his life in great amounts of suffering. I do not want to live my life, in that amount of unhappiness! We all have a free will, to choose what type of lifestyle that we want to live. We can live like Jesus, or live like the Devil. The choice remains with us to decide! When we are living, in some way, like the Devil, if we repent from doing this, we are making one step toward's a better life to live! We, can repent! Even better would be to do something like Jesus would do. Becoming less like the Devil, and more like Jesus, results, in a happier life to live! God is perfect! He is a just person! It's our own mistakes, that have resulted in the quality of life we are living! It's not God's fault in any way, that has determined the quality of life that we get to live! It's only our own fault, or misconceptions of logic, tat has determined the quality of life that we live! We all need to study the way Jesus has chosen to live, when he was upon this earth! He is successful in life! He has never sinned! He has been rewarded the best life, that anyone can possibly be living! Jesus want's to share his life with us, so that we too can be living, a better life! He is waiting for us to choose him, and his way of life, so that we can be happy, like he is happy! It all depends on us. We must choose Jesus, and his way of lifestyle, so that we can be happy like he is happy. There may be something in the way, of our obtaining happiness. I say repent! Repent, and all will be well with us! The choice is ours, choose wisely!
