

Jesus Pleases his Father God, by only doing what his father likes. Jesus does not say he is great, but only says God is great. The devil and his people are not happy, but Jesus and his people are content and happy. We are all sinners, and should confess our sin, say it's bad, and repent, so that we progress in life. Those who love Jesus, see things differently, than those who do not love him. Jesus glorifies God and praises him as who he is, the Father of all life. Jesus drank the cup of death, which the devil gave to him. Killing Jesus does not gain more life from him, but rather more death. Asking Jesus to heal our bodies, results in a better life to live. If all prophets praise the Name of Jesus, then all are doing well indeed. We shall praise the name of Jesus, because, no other profit is without sin, and Jesus is able to save us. For the baptism of John the Baptist, is the remembrance of past sin, the act of saying I'm sorry I did these things, the acknowledgement that Jesus paid for my sin, and then there is forgiveness and healing of our bodies. For we should worry nothing about what we own or the money we have, for in doing so, it would only make us more un-happy in life. For salvation from our sin, does not come by another sinner, for we would still be a sinner, being saved by another sinner, but the real Jesus does not sin and can save us from our sin! Where there is separation between the Heavenly hosts, then there is sin, but God is one God, and with no separation, between his kingdom. But with the devil's kingdom, there is much separation between, members! True, we must be as little children, and it is very difficult, for a rich adult to enter into the kingdom of Jesus, for Jesus does not value Money, but rather values Life. Just as children tend to value Life more than Money, which is good, unless their told to love money, just as the adults have done, which hopefully the children, will not care about money much, and stay well, and the adults will have to find another source of happiness to obtain. For what if a person gain the whole world, would they not be happy? For me no, just more miserable. But let us not judge anything, lest we be judged of our own judgement! For as we judge, or have judged, we live with our judgement! For who can tell in these days, what is good and what is bad, for the bad say that they are good, and that the good is bad, but the actually good people, are not interested in getting caught up in the games of today's world. So I must ask myself, what evil do I desire, and what do I desire from Jesus? If my choice is from Jesus, then my hearts desire is good, and I receive good in life. But, if I do not desire what Jesus provides for me, that which is life, and happiness, woe to me, for I receive evil as my hearts desire. For we all get what our heart's desire is, but the famous thought which Jesus is known for saying is, "Forgive them (Jesus talking with God) for they know not what they ask". Which is true, we tend to ask for a life to live, which we only think is a good life to experience, but sinful desires, only tend to bring un-happiness later in life. And, the moral of the story is that, we must place all of our trust in Jesus for our salvation, for as it is written, there is only one name in Heaven for the Salvation of sin, "JESUS".
